

## Description

**Nexus Marine Engine Lubricant** is formulated with highly refined base oils and carefully selected additives to provide very good anti-corrosion and anti-foam properties. Special additives for detergency and exceptional oxidation stability provides clean piston interiors and crankcase.

## Applications

**Nexus Marine Engine Lubricant** is recommended for the crankcase lubrication of large low-speed marine diesel engines operating with all fuel types and under all loads and operating conditions. The lubricant should be used in accordance with OEM guidelines and recommendations.

## Benefits

- Effective water and contaminants handling
- Helps to ensure clean crankcases, piston interiors and lubricating oil lines
- Prevent formation of foam and ensures smooth operation of pumps with a continuous oil feed to all engine parts
- Helps to protect bearings and white metals in the engine lubrication systems against corrosive wear from acidic combustion by-products
